The 2025-26 State League Table

In 2025-26 India produced 2,538 lakh tonnes of milk, 15,688 crore eggs and 106.3 lakh tonnes of meat, worth ₹18.73 lakh crore at 2024-25 current prices. Eggs grew 5.1%, milk 2.4% and meat 1.2% over the year, and no single state leads all three.

Two leaders. Uttar Pradesh leads milk (15.6%) and meat (13.8%) but is 8th in eggs; Andhra Pradesh leads eggs (17.9%), having overtaken Tamil Nadu since 2014-15.

Overall, by weight, Uttar Pradesh is first (413.55 lakh MT), ahead of Rajasthan and Madhya Pradesh. Milk is 93% of the combined 2,729.14 lakh MT, so it largely sets the order.

Five all-rounders, Uttar Pradesh, Maharashtra, Andhra Pradesh, Karnataka and Haryana, are top-10 in all three, supplying 39% of milk, 41% of eggs and 48% of meat.

Per head, only Haryana is top-three in all three: 1,142 g milk a day, 312 eggs and 23.75 kg meat a year (India: 492 g, 111 eggs, 7.52 kg).

Meat needs a check. Tamil Nadu reported a 42.5% fall (8.02 to 4.61 lakh MT). Without it, India's meat grew 4.8%, not 1.2%.

Data Table

Ordered by overall rank (total output by weight)

State/UT	Milk		Eggs		Meat		Eggs as lakh MT*	Total (lakh MT)	Overall rank
